VISION AND MISSION

What drives A2IT

OUR MISSION

Innovative, high-quality IT solutions

Deliver innovative, high-quality IT solutions with a customer-centric approach.

OUR VISION

Creativity, technology, professionalism

Blend creativity, technology, and professionalism in every digital product we build.

OUR VALUE

What we stand for

Business focus

Every decision tied to the business goal.

Skilled team

Capable professionals across development and marketing.

Custom innovation

Solutions shaped for each client, not off the shelf.

On-time delivery

Plans kept and launches met as agreed.

Support

Care that continues after launch.

POSITIONING

Digital capability with a business mindset

A2IT brings together business-minded IT professionals to create clean, unique, and resourceful digital work that helps clients move from idea to launch.

The work stays practical: clear thinking, capable delivery, and a direct path to launch.

CORE POSITIONING

Marketplace and affiliate solutions

Amazon, eBay, Alibaba, and affiliate business solutions, supported by web, app, design, and marketing capabilities.

FROM IDEA TO LAUNCH

One connected capability

Business-minded IT professionals bring clean, unique, and resourceful digital work to the moments that matter.

EVIDENCE

Proof that compounds over time

A2IT’s experience is measured in the work delivered, the clients supported, and the capability built along the way.

5 years

Combined software development experience

100+

Satisfied clients worldwide

200+

Successfully delivered projects

Proof points from A2IT’s company profile.

MILESTONES

Trust, project, growth

TRUST

Clear planning and a shared understanding of the business goal.

PROJECT

Build and implementation delivered on time and with care.

GROWTH

Post-launch support and a stronger market presence.

OUR SERVICE

Design, build, and grow online

Design & Development

Web, app, and product design built around the business goal.

ERP System Development

Custom systems that connect day-to-day business operations.

E-Commerce

Marketplace and affiliate business solutions that move products to market.

SEO / SEM / PPC

Search visibility and paid campaigns that bring the right visitors in.

OUR SERVICE

Marketplaces, hosting, and storefronts

Amazon and eBay

Marketplace setup and channel solutions for online sellers.

Shopify

Storefront design and development on Shopify.

Server and Hosting

Reliable hosting and server management for business sites.

Alibaba and affiliate

Sourcing and affiliate business solutions that support growth.

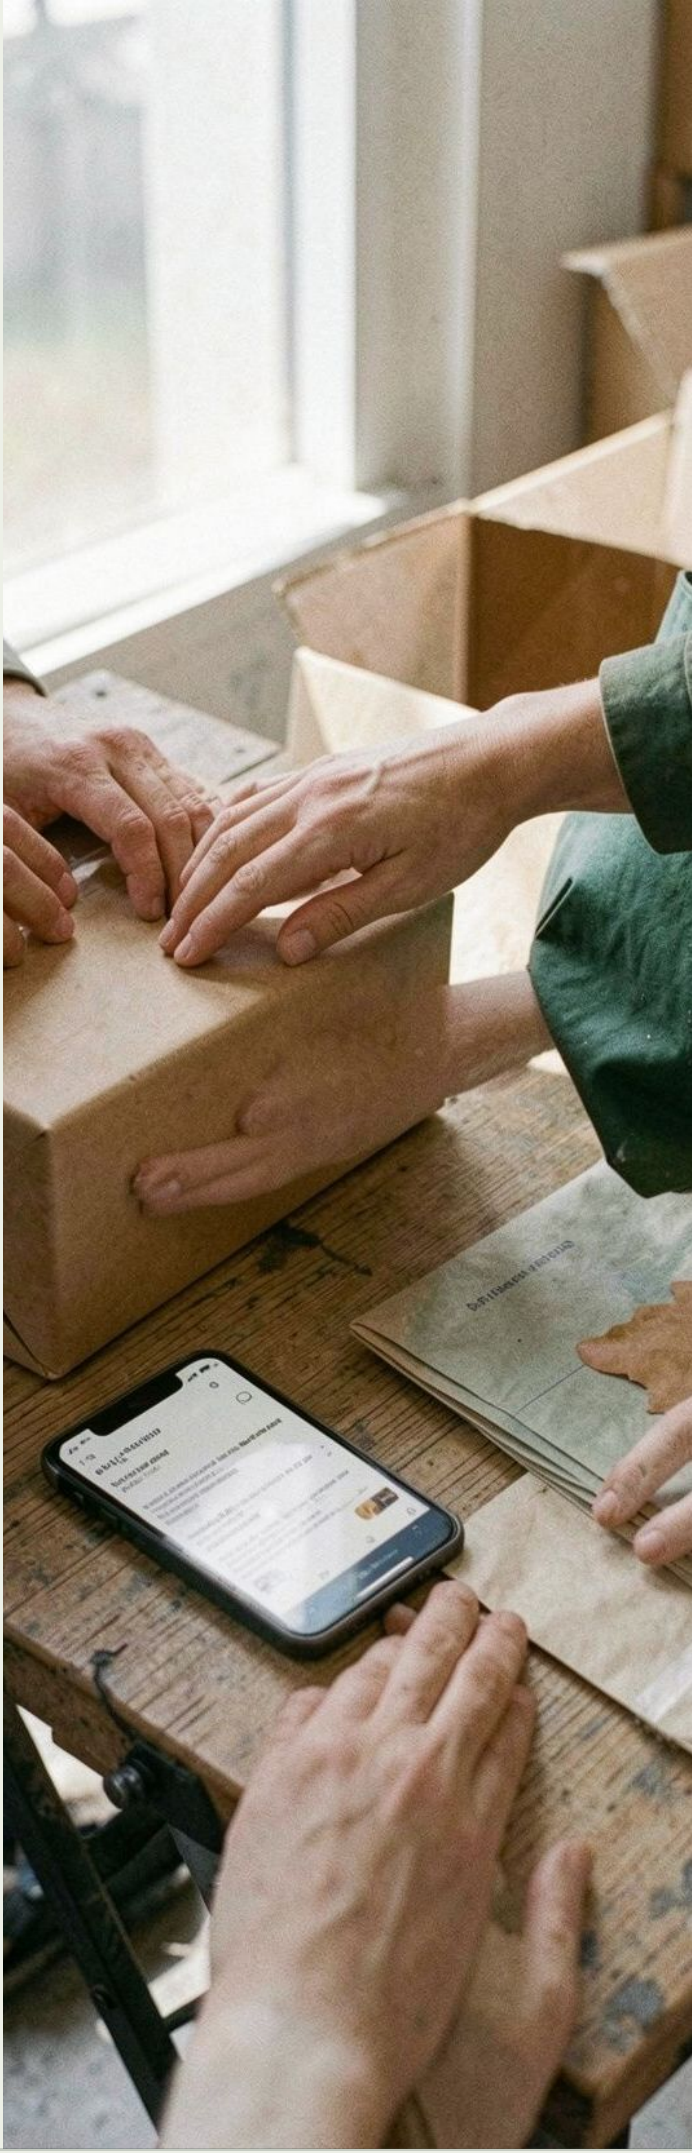

E-COMMERCE

Built for e-commerce in the real world

A2IT is a practical partner for marketplace and affiliate businesses across Amazon, eBay, Alibaba, and related digital channels.

Strategy, experience design, implementation, and promotion work together instead of arriving as isolated deliverables.

Marketplace thinking / connected digital capability

BUSINESS STRATEGY

Plan the path before the build

Understand the goal

Start from the business objective and the launch concern.

Shape the experience

Design the product, system, or campaign around that goal.

Connect build and promotion

Keep development, design, and marketing working as one plan.

PROCESS

Three steps from plan to launch

01 Planning

Understand the business goal, scope, and launch concern.

02 Build and implementation

Design, develop, and deliver clean, scalable, on-time work.

03 Post-launch support

Hand off smoothly and keep supporting the market presence.

A clear route from conversation to launch.

BENEFITS

Why work with A2IT

Business-minded delivery

Technical work that serves the commercial goal.

Clean, unique, resourceful work

Digital products that stand apart and perform well.

A clear path to launch

Planning, build, and handoff without surprises.

Support after launch

Ongoing care so the product keeps growing.

OUR TEAM

A team that connects craft to execution

A2IT combines technical delivery, digital marketing, and credentials that keep projects moving from craft into execution.

LEADERSHIP

Founder and CEO

Avijit Lasker (Founder)
Tanni Rani Saha (CEO)

DEVELOPMENT

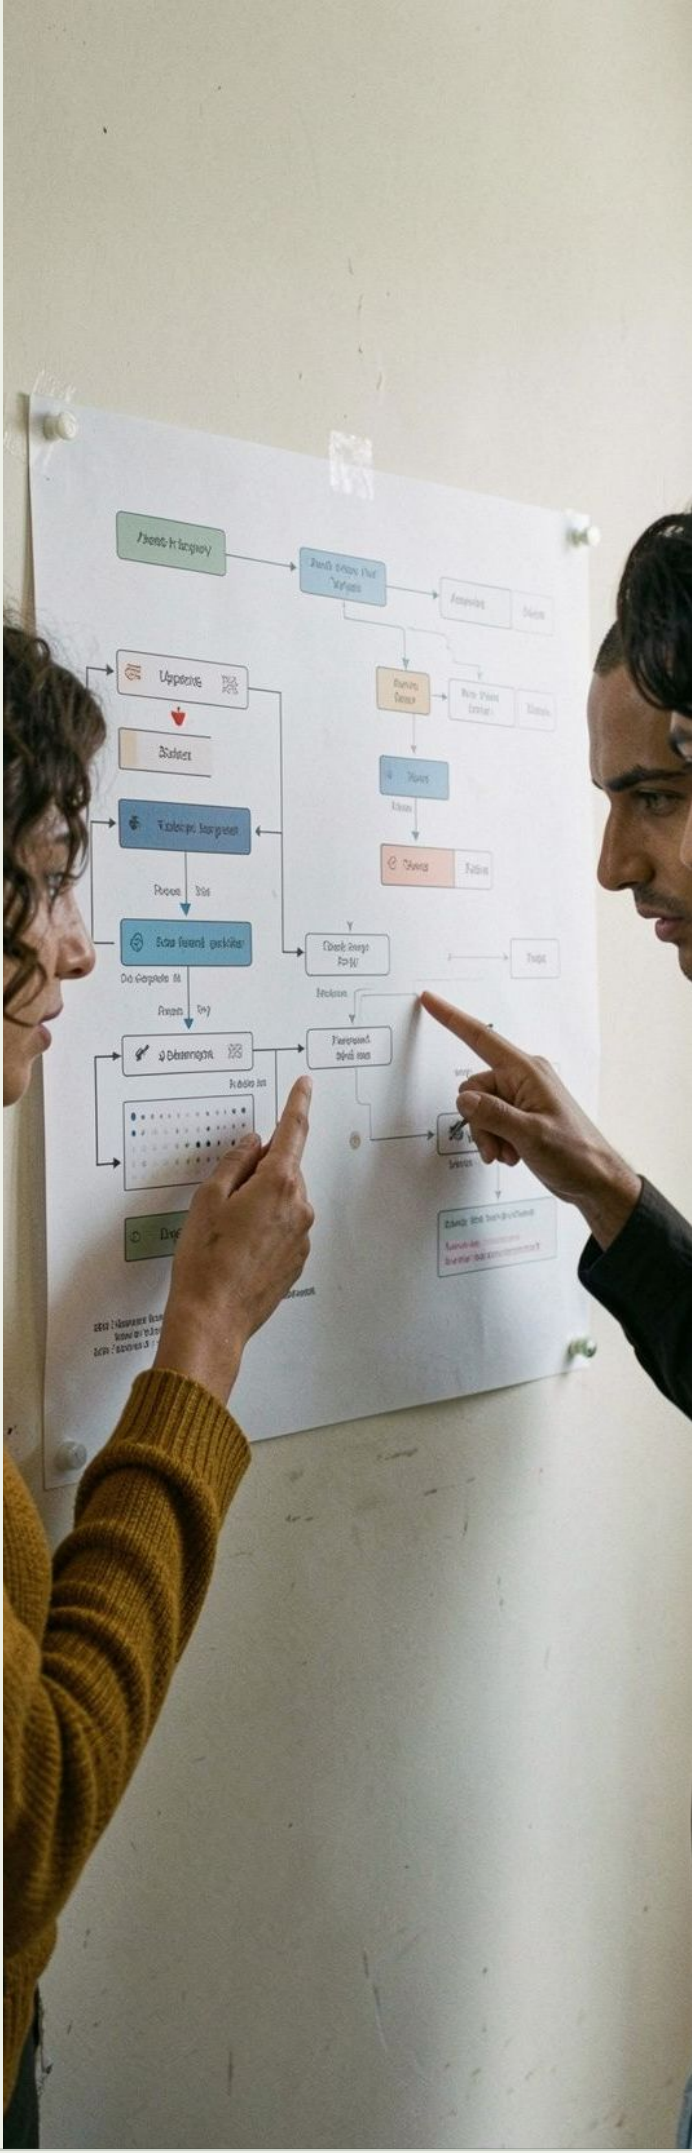

Full Stack and Web

Naima Uddin (Full Stack Developer)
Shohana Rahman (MERN Stack Developer)
